All first and second tier subcontractors must be listed on the attached subcontractor schedule. Permit holders will be ultimately responsible in ensuring all subcontractors possess current licensing (business license and any applicable professional licenses) and that all required inspections are requested and performed.

I hereby acknowledge that I have read this permit application and state that all of the above information is true and correct; that I am the owner of the above-referenced property or an authorized agent acting on the owner's behalf; that I agree to comply with all applicable building codes, zoning ordinances and all other laws/regulations pertaining to construction, including those pertaining to flood zone construction/renovation and storm water runoff, whether or not specified herein; and acknowledge that I am responsible for the disposal of all construction and demolition debris in a legal manner.

I certify that I have located by actual excavation the City sewer, if available, that will serve the building for which this permit is being issued and I certify that the building floor elevation is of sufficient height to provide minimum slope requirements from the building to the public sewer or private sewer system; that I hereby agree to protect all public improvements and public utilities adjacent to or serving the property on which this project is located, whether or not the said improvements or public utilities are the property of the City of Anniston; and that I further agree to be financially responsible for any repairs for damage to public improvements and public utilities that are caused as a direct or indirect result of construction hereby permitted.

SUBCONTRACTORS SCHEDULE

This schedule must be completed and submitted at the time of permit application. It is the responsibility of the permit holder to notify the BISD of any changes to the original schedule. Should any subcontractors be added to the project, the permit holder shall notify the BISD immediately with all related contact information. All subcontractors must be properly licensed (business license and any applicable professional licenses) prior to commencing work of any kind.
